ABOUT US

Established in 1932, Bay City Electric Works is the premier distributor of Kohler generators, paralleling switchgear, controls, and parts. Including custom designed and built generator packages required for unique or specialized applications. We pride ourselves in supporting your project from inception to installation and then throughout the life of your equipment.

Bay City Electric Works is your complete source for all of your power needs. Our service and parts department is one of the largest factory trained, generator-specific service organizations in California. We offer planned maintenance as well as emergency repairs 24 hours a day, 365 days a year servicing all makes and models of power generation equipment.

Bay City Electric Works offers power generation training to contractors and specifying engineers on the permits and regulations required in California.

PRODUCTS

Bay City Electric Works represents the best known and respected generator brand in the power generation industry, Kohler Power Systems.

As a leading manufacturer of integrated generator power systems, Kohler can provide power systems for any size application; from residential units to multi-genset industrial installations. Kohler offers gas models 8.5 kW to 400 kW and diesel-fueled models from 10 kW to 3250kW, as well as electronic controls, automatic transfer switches, and paralleling switchgear.

Kohler's home generators are designed for residences large or small, whether you want whole house or partial backup power. No matter what commercial-grade Kohler home generator you choose, they provide reliable, safe power and come with the industry-leading Kohler warranty for, "life without interruption".

Kohler Power Systems offers mobile generators from 20 kW all the way up to 500 kW - for any application you can imagine and portable generators with nine different units, ranging from a 2.0 kW inverter to a 12.3 kW gasoline-powered generator.
