

Anywhere, Anytime, Any Way.

Bay City Electric Works rental department is always ready for emergency response or “quick drop” deliveries to job sites, facilities, or events. The Bay City Electric Works team can also provide turnkey specification, design, installation, and execution of projects; from small to large.

Quick Reference Guide for Sizing Units.

Bay City Electric Works has a trained rental staff with over 50 years of power generation and rental experience waiting to assist you with your rental needs and help you determine the power needed for your specific requirements. You may also use the chart below as a quick guide to the required kW size needed for your system’s voltage and amperage configuration. Just let us know how we can help.

GENERATOR OUTPUT RATINGS					
kW	kVA	Amps @ 1 Phase		Amps @ 3 phase	
		240-V	208-V	480-V	
20	25	45	69	30	
48	60	100	150	75	
60	75	130	200	90	
100	125	200	300	150	
150	180	297	-	225	
180	225	497	625	270	
200	250	497	694	300	
350	400	646	1000	525	
400	500	-	1285	600	
500	600	-	1600	750	
600	750	-	-	900	
700	800	-	2200	1000	
800	1000	-	-	1200	
1210	1375	-	4197	1819	
1500	1875	-	-	2250	
2000	2500	-	-	3000
